

# Creating a Facebook Account

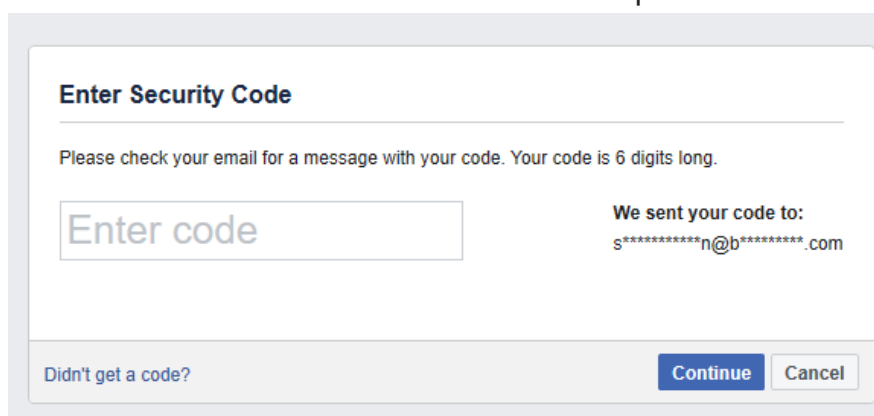

## To create a Facebook account:

1. Go to [www.facebook.com/r.php](http://www.facebook.com/r.php)
2. Enter your name, email or mobile phone number, password, date of birth and gender
3. Click Sign Up
4. To finish **creating** your **account**, you need to confirm your email or mobile phone number

The screenshot shows the Facebook sign-up page. At the top is the Facebook logo. Below it, the heading 'Create a new account' is followed by the text 'It's quick and easy.' The form includes several input fields: a name field with 'John' and 'Smith' entered, a field for 'Mobile number or email address', and a 'New password' field. There are also dropdown menus for 'Birthday' (set to 19, Mar, 1995) and 'Gender' (with radio buttons for Female, Male, and Custom). A 'Sign Up' button is at the bottom. A small disclaimer at the bottom of the form states: 'By clicking Sign Up, you agree to our Terms. Learn how we collect, use and share your data in our Data Policy and how we use cookies and similar technology in our Cookie Policy. You may receive SMS notifications from us and can opt out at any time.'

You will be sent a code to your email address or mobile (usually 6 digit one e.g. 654321). Enter this into the box on the next screen and press Continue:

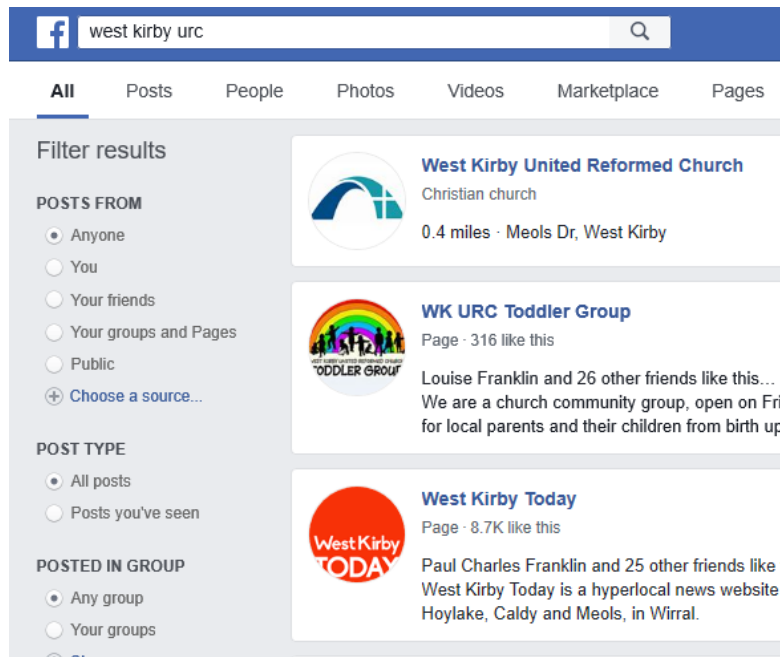

The screenshot shows the 'Enter Security Code' verification screen. It has the heading 'Enter Security Code' and a sub-heading 'Please check your email for a message with your code. Your code is 6 digits long.' There is a large input field labeled 'Enter code'. To the right, it says 'We sent your code to: s\*\*\*\*\*n@b\*\*\*\*\*.com'. At the bottom, there is a link 'Didn't get a code?' and two buttons: 'Continue' and 'Cancel'.

You should then be logged in.
